

HUMAN ECOLOGY SURVIVAL

WEAKNESSES

- not aligned with Soc 5.0
not aligned with Agric
unrecognized strengths
lack of internal collaboration
translating research to policies/ other outputs
staff x members of professional assoc/bodies
lack of marketing
no team/ succession plan
IP and commercialization
lack of high impact outputs
overlap/ duplication
x program/ minor in certain depts
no growth in research programmes
human resource (effectiveness)
e.g. legal
internal (within FEM)
external (others)
networking
program/ interventions
in expertise
need bird's eye view
no cumulating knowledge
no leadership

STRENGTHS

- COMMUNITY-BASED
MULTI-DISCIPLINARY
POLICY/ INDUSTRY REFERENCE
HUMAN-CENTERED & HUMANISTIC
ACADEMIC PROGRAMS
Youth
Indigenous
Homeless
Women
Consumers
potential for research group/ CoE
must be multidisciplinary
evidence?
double-edged sword
to what extent?
impact?
can integrate
can disintegrate
evidence?
individual processes
lifelong
socio-cultural processes
civilization
ecological
bio-psycho-social
womb to tomb
highly sought
Islamic studies
Politics and Government
high # of PGs
one of the earliest/ unique
community development
human development
financial planning
PG in Music
highly sought

STRATEGIES

- to combine and harness individual strengths
social media to improve visibility
signature programmes to generate income
get people to tweet
