PROGRAMME INFORMATION

BACHELOR OF HUMAN DEVELOPMENT SCIENCE WITH HONOURS

INTRODUCTION

The Bachelor of Human Development Science with Honours (BSPMK) is designed based on the philosophy of holistic and balanced human development throughout lifespan, in accordance with nature as a human being created by God which includes the process of mutual interaction and transaction between humans and the ecosystem towards the achievement of quality of life and environment.

PROGRAMME OBJECTIVES

The programme aims to produce:

1. professionals who are competent in theoretical and practical aspects of careers related to Human Development Science.
2. professionals who are proactive and carry out impactful research in the area of Human Development Science towards achieving quality of life and the environment.
3. professionals who portray innovative and ethical leadership and can manage the organization.

BACHELOR OF HUMAN DEVELOPMENT SCIENCE WITH MANAGEMENT (HONOURS)

INTRODUCTION

The Faculty of Human Ecology offers a **Major-Minor** programme, Bachelor of Human Development Science with Management (Honours) (BSPMPK) which **combines two major** fields of study: **Human Development** as the **Major programme** and **Management** as the **Minor programme**. This combination allows students to acquire and integrate knowledge and skills in those two fields. Changes in the era of industrialisation and the virtual world call for an institution of higher learning that produces graduates who are knowledge workers with the relevant skills for the nation's evolving human resource market. This programme is expected to produce workers with management skills besides effective roles as individuals in the family, society and organizations.

PROGRAMME OBJECTIVES

The programme aims to produce:

1. professionals who are competent in theoretical and practical aspects of careers related to Human Development Science with Management.
2. professionals who are proactive and carry out impactful research in the area of Human Development Science with Management towards achieving quality of life and the environment.
3. professionals who portray innovative and ethical leadership and can manage an organization.

BACHELOR OF HUMAN DEVELOPMENT SCIENCE WITH INFORMATION TECHNOLOGY (HONOURS)

INTRODUCTION

The Bachelor of Human Development Science with Information Technology (Honours) (BSPMTMK) is a **Major-Minor** programme that focuses on basic and technical skills in the fields of **Human Development** as the **Major programme** and **Information Technology** as the **Minor programme**. The programme is consistent with the national aspiration of becoming a developed nation with an emphasis on information technology. The programme aims to produce versatile, multi and inter-disciplinary graduates by preparing them with a combination of skills from applied Social Sciences (Human Development) and Technology (Information Technology). The information technology component is expected to give a competitive advantage to the programme graduates compared to Social Science graduates from other local and international universities.

PROGRAMME OBJECTIVES

The programme aims to produce:

1. professionals competent in theoretical and practical aspects of careers related to Human Development Science with Information Technology to meet the needs of industry and society.
2. professionals who are proactive and authoritative in conducting impactful research in the field of Human Development Science and Information Technology towards achieving quality of life and environment.
3. professionals who portray innovative and ethical leadership and utilize information technology in an organization.

BACHELOR OF CONSUMER STUDIES WITH HONOURS

INTRODUCTION

The Bachelor of Consumer Studies with Honours programme is founded on the philosophy underlying the creation of a consumer society that is well-informed, responsible, ethical and proactive/ for the purpose of enhancing fairness in marketing practices and supporting sustainable development for improving the quality of life. The field of Consumer Studies integrates various disciplines in pure and applied sciences such as Economics and Consumer Behaviour, Management, Marketing, Science and Technology, Socio-psychology, Communication and Law. The programme equips students with knowledge and skills in aspects of consumerism so that they can become intermediaries between producers, consumers and policy makers.

PROGRAMME OBJECTIVES

The programme aims to produce officers who are:

1. competent in work related to the field of Consumer Studies.
2. able to solve problems in the field of Consumer Studies.
3. able to lead activities in an organization.

INTRODUCTION

PROGRAMME OBJECTIVES

1. competent as highly knowledgeable musicians in the theoretical and practical aspects of music.
2. able to conduct research in the area of Music.
3. capable of being an officer with ethics and integrity in areas related to Music.
